

Mater Dei Catholic High School and Parish

Roesling Nakamura Terada Architects, Inc. (RNT) and Sundt Construction were selected to lead the design and new construction of the Mater Dei High School Campus and Parish. This private school, located in Chula Vista, is a Design-Build delivery method to accommodate up to 2,200 students. The project includes classroom buildings, theater and fine arts building, administration building, library, chapel, gymnasium and maintenance buildings. The new high school building and parish is 218,000 SF.
